Records of Practice: Means for engaging students in the examination of how the complex and adaptive practices of teaching might be learned.

R. Charles Dershimer and Simona Goldin, Teacher Education Research Corpus

Step 1: Students' Work with Written RoP

- Developed a set of common instructional tools and language for use across our teacher education program
- Analyzed student work with grounded data approach (Glaser and Strauss 1967)

Step 2: Students' Work with Video RoP

- Reviewed student work by class to identify representative thematic examples
- Encourage and develop skills such that teachers must make resources and support to notice classroom interactions

Implications for Teaching

- Developed a set of numerous instructional tools and language for use across our teacher education program
- Analyzed student work with grounded data approach (Glaser and Strauss 1967)
